Second Oral Presentation

Name of the PhD researcher: 

Student Number: 

Title of the PhD: 

Name of the Supervisor: 

Date of the presentation: 

In this presentation, the emphasis is on the presentation of the research already conducted the completion of the doctoral training programme and the timetable during the last phase of the doctorate.

This is a good opportunity to run through the items in the doctoral training diary and identify potential problems! Take into account that in order to complete the doctoral training programme you:

- will need to be main author of at least one accepted international publication
- will need to have presented at least 2 seminars
- will need to have participated actively in an international scientific conference
- will need to have contributed actively to bachelor/master education
- will need to have followed formal training to an equivalent of 6 ECTS credits (of which at least 2 ECTS credits have been dedicated to skills courses)

PhD researchers in Engineering Technology who started after 30 September 2017 must also include a status of the second draft of the exploitation plan (The final version of the plan must be included in the manuscript).

The Supervisory Committee gives a recommendation on how to meet the requirements in the doctoral training diary and how to finish the doctorate within the given timeframe.

Names and signatures of all members of the Supervisory Committee need to be included separately on the signature sheet in attach to this report.

The PhD researcher needs to upload his/her presentation and this form and the signed signature sheet via his/her KULoket tool.

Expected date of defense (approximately): .........................

Are there any items in the doctoral training diary that need special attention?

..........................................................................................................................................................................................

Report by the Supervisory Committee:
